

Low frequency shielded boxes

For shielding of low frequency magnetic fields, we build shielding boxes from our patented Mu-ferro HD ([click for more information](#)).

These boxes for shielding low frequency magnetic fields can be made in any desired shape and according to your supplied drawings.

These values are measured under laboratory conditions. In your situation results may differ, please read our [Guarantee](#).

How to order

When you want to order Low frequency shielded boxes please specify the part number as follow or send your drawing to info@hollandshielding.com.

| Product | Width (mm) | Length (mm) | Height (mm) |
|------------------------------|------------|-------------|-------------|
