

FARADAY CAGE WINDOWS

EMI/RFI-shielded Faraday cage windows

EMI/RFI-SHIELDED FARADAY CAGE WINDOWS

We manufacture Faraday cage windows ready for installation. These windows guarantee very high EMI/RFI/EMC-shielding performance. Faraday cage windows can be manufactured in any dimension and according to the customer's drawing.

A Faraday cage window is made up of several EMI/RFI-shielding products.

We put two layers of 9600 series EMI/RFI-shielded glass on either side of 9000 series Mesh foil to ensure very high shielding performance in a wide frequency range.

These three layers are held together by an aluminum frame for easy installation. The aluminum frame is provided with an electrically conductive 6800 series Amucor gasket to ensure good electrical contact with the Faraday cage.

Our engineers can give you the best advice for your application. Please send your drawing to info@hollandshielding.com for more information.

before interior finish

ORDER EXAMPLE

Product	Width (mm)	Height (mm)
Faraday cage windows	Specify the width in mm including the frame. Max 3 meter.	Specify the height in mm including the frame. Max 6 meter.
