

## V-SHAPE GASKET 8700

V-shape EMI/RFI shielding gaskets for applications between lids, hinges and locks, and between door and door frame

V-shape EMI/RFI shielding gaskets for applications between lids, hinges and locks, and between door and door frame.

The V-shape gaskets 8700 series are characterized by a very large compression range and low closure force. They come with a self-adhesive strip for easy mounting. The most common version is with conductive nickel over copper textile (**Material code T**).

The version with highly conductive Amucor foil (**Material code A**) is designed especially to be combined with aluminum and zinc-plated steel. To prevent loss of material and for easy shipping we cut the material to exact lengths. The longest length available is 2.5 meters.

V-shape gaskets are also available with a resilient foam rubber insert for more compression just at the moment of closing.

The V-shape gasket 8700 series is flame retardant and can be supplied in a UL94V-0 compliant version. Excellent shielding can be achieved without any permanent closure force. This construction prevents bending of doors, so the enclosure can be less rigid. It is also suitable for hinges and locks.

### BENEFITS

- Easy to fit with self-adhesive
- Allows for large tolerances
- High EMI/RFI shielding performance
- Very high deflection
- Very low closure force
- Lengths of 5mm up to 2500mm
- Only scissors required for installation

### OPTIONS (ON REQUEST)

- Cut into accurate lengths
- Different conductive foils and fabrics

Metal door

Wooden door

### SHIELDING PERFORMANCE\*

■ 8700 - V-shape gasket

### STANDARD DIMENSIONS

To place the v-shape in a curve, we recommend that the surface is clean, smooth and dust free.

### EXAMPLES OF APPLICATIONS

The V-shape gasket is intended for applications between lids, hinges and locks as well as between a door and the door frame. Of course many other applications can be imagined.

Part number	8733	8744	8755	8766	8777	8788	87107	871212	871818	872020
Width X (mm)	3	4	5	6	7	8	10	12	18	20
Range Y (mm)	0.3-1.5	0.3-2.0	0.3-2.5	0.6-3.0	0.6-4.0	0.6-4.0	0.6-5.0	0.6-6.0	1.0-9.0	1.0-10.0

### ORDER EXAMPLE

Part number	Material	Insert	Length (mm)
Type a part numbers from the dimensions table above	T: Conductive textile A: Amucor foil (standard)	I: With a resilient foam rubber N: No insert	Specify the length (mm) Max. length 2500 mm. Others on request. Keep small for economic transport
